

SEDACEI[®]

automation

**"AUTOMATING PROCESSES,
OFFERING EFFICIENT SOLUTIONS"**

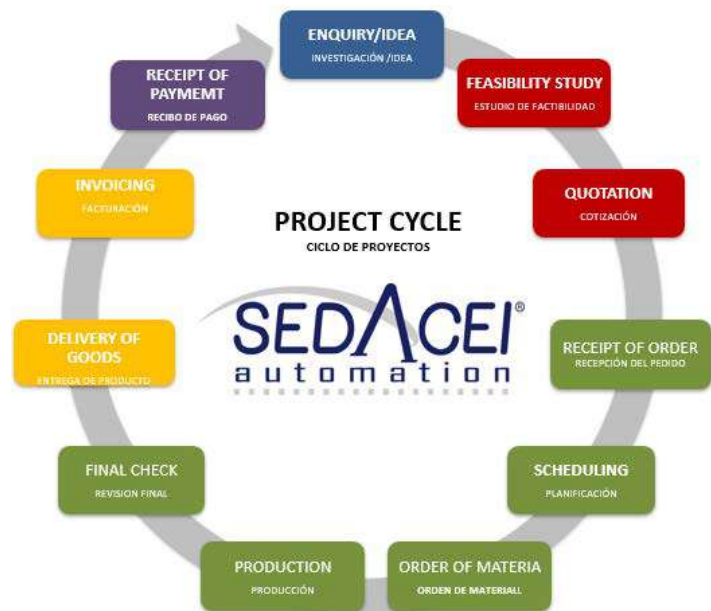

SEDACEI AUTOMATION:

Is a Mexican company with more than 100 years of accumulated experience in the international manufacturing industry, highly competitive, whose great and team work reflects its unparalleled after sales service through its methodology, achieving OTDS of 99% and with a Available CNC manufacturing capacity of more than 16,000 hours per year.

BUSINESS UNITS

- CNC Manufacturing.
- Pallets and Fixtures.
- Engineering Services.
- Automated Projects.
- Merchandizing

Mission:

SEDACEI is a company focused on the satisfaction and total success of our customers with the commitment to achieve the highest quality in the manufacture of our products and services. It is our basic business principle, to provide our clients with a level of quality and service that consistently reaches and exceeds their expectations.

Vision:

Being a worldwide company developing Industrial and manufacturing solutions with our brand, achieving a high impact on the global market based on competitiveness, functionality, quality and cost.

CNC MANUFACTURING AND WELDMENTS

We offer CNC precision manufacturing services, such as mechanical metal parts, supplemented by the welding service to achieve assemblies of mechanisms that are part of equipment or sub-assemblies thereof. We have experience in manufacturing components in ferrous and non-ferrous materials.

PALLET AND FIXTURES

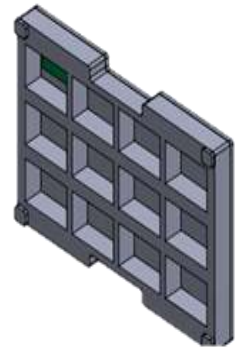

ESD STORAGE SHADOW BOARDS

Design and manufacture of EVA ESD (Ethylene Vinyl Acetate) pallets, based on a previous analysis according to the proposed function, to select thicknesses and hardness.

Applications:

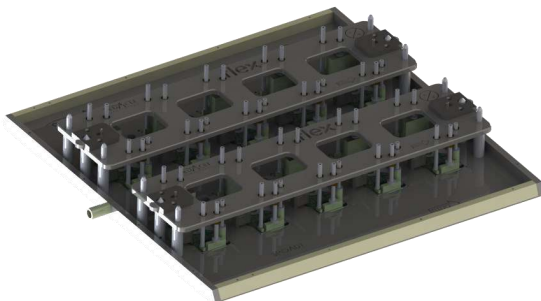

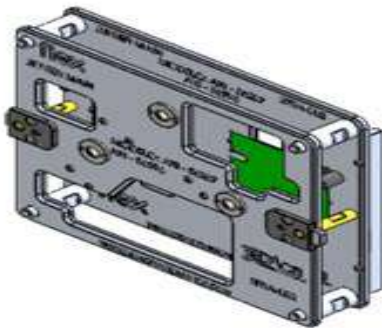

- Templates for transportation of electronic components
- Template for placement of productive parts.
- Template for placement of tools.

Hardness: 15 ° - 75 °, degrees.

Thickness: 5 to 110 mm. Available.

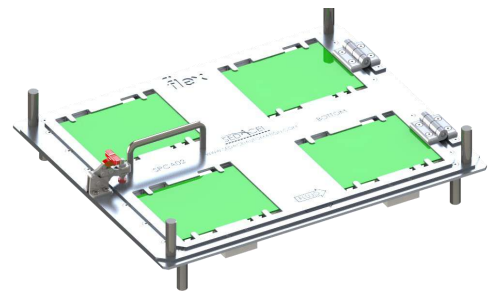

CUTTING AND WELDING PALLETS

Design and manufacture of pallets.

Construction material :

Durostone cas 761 black.
Durestone cbc 502 black.
Solid pro black.
Durapol 68940 gray.
Durapol 68910 black.
Ricocel es-3261a black.
G10

Applications:

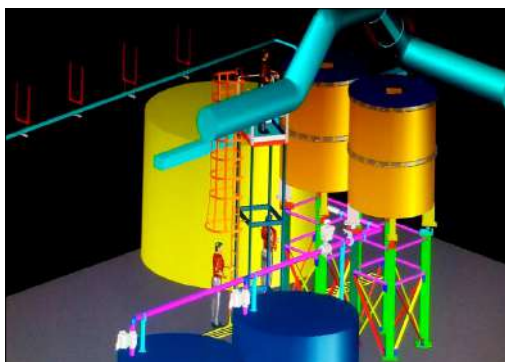

Pallet for wave soldering.
Pallet for selective welding.
Aluminum Pallet for conformal coating application.
Aluminum Pallet for Electronic boards Cutting.

ENGINEERING SERVICES

Sedacei Automation has the ability to offer engineering service internationally to perform equipment installation, improvements in the production line, commissioning, programming, Lay-out modification, among other services.

We have a trained team that can support various tasks such as: Design, reading of drawings and diagrams, electrical control, automation, welding application, and manufacturing with CNC technology.

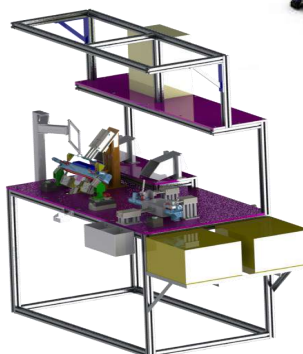

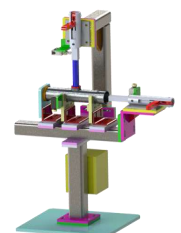

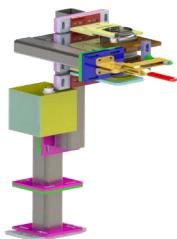

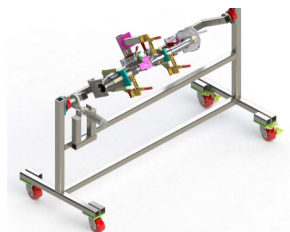

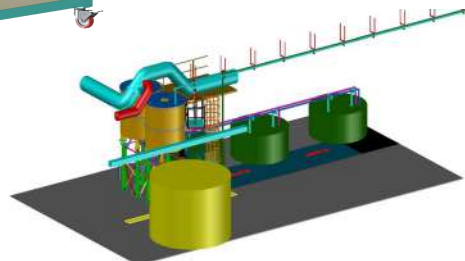

Sedacei Automation is committed to security and good treatment to the client, for this reason our staff has a DC3 Certificate for the activities that require it and for our clients we can offer bonds and civil liability insurance previously negotiated at the beginning of the project.

AUTOMATED PROJECTS

SEDACEI Automation has Know- How to develop automated systems and mechanisms according clients requirements, vertically developed from the 3D Engineering solution to in plant installation. Actually our human capital are integrated by professionals that increase our value as a company designing and manufacturing products with high technology.

- Mixer Machine.
- Buffing Machine.
- Deburring Machine.
- Automated Mixer Scale.
- Vibrating Machine
- Welding Jigs.
- Lubrication Systems.
- Assembly and Quality test work stations.
- Vision Systems.
- Automated Conveyors.
